3. core exercise items of your choice 5sets

1 .all the accessory exercise like abs exercise, biceps, triceps exercise and so on, you can choose a weight which you can finish 10-12 reps but not exhausted.

2. all the accessory exercise should be performed with extra weight. we don't write the weight because we want to give you more freedom to choose it.

3 .6X2 5X3 ,you can see many numbers above. the one in the front is for sets, and the one in the back is for reps. So for example, **Back extension 5x10**

You should choose a bar or plate with a weight which you can finish 10-12 reps and finish 10 reps for each set. and there are 4 sets for you to finish.
